

SURAT PERINTAH TUGAS

No: 200/SPT/IX/2025

Yang bertanda tangan dibawah ini

Nama : Dr. Ir. M. MUSTANGIN, S.T., M.Eng
NIP/NIDN : 0522117601
Jabatan : Direktur

Menugaskan kepada

Nama : Bahrul Ulum S.P., M.Sc
NUPTK : 1939775676130242

Untuk mengikuti/melaksanakan acara : *International Conference on Health Science and Technology*

yang dilaksanakan pada :
hari/tanggal : 24-25 September 2025
di : Universitas Aisyiyah Yogyakarta

Demikian surat tugas ini diberikan kepada yang bersangkutan untuk dilaksanakan sebagaimana mestinya.

Dibuat di : Yogyakarta
Pada tanggal : 23 September 2025

Direktur

Dr. Ir. M. MUSTANGIN, S.T., M.Eng
NIDN 0522117601

CERTIFICATE

1374/UNISA/AU/IX/2025

OF APPRECIATION

This certificate is proudly presented to

Bahrul Ulum, S.P., M.Sc.

As a Presenter at the

INTERNATIONAL CONFERENCE ON HEALTH SCIENCE AND TECHNOLOGY

BRIDGING BIOSCIENCE, HEALTH, DIGITAL TECHNOLOGY, AND SOCIETY: A PATHWAY TO ECONOMIC GROWTH AND SUSTAINABLE WELL-BEING

24-25 September 2025 at Aisyiyah University Yogyakarta

Dr. Warsiti., S.Kp., M.Kep., Sp.Mat
Rektor

Luluk Rosida, S.ST., M.KM.
Ketua LPPM

4th International Conference on Health Science and Technology (ICHST 2025)

"Bridging Bioscience, Health, Digital Technology, and Society: A Pathway to Economic Growth and Sustainable Well-being"

Join with us

ICHST 2025

As a big umbrella conference, ICHST covers three main tracks of conference; health, social economic and humanity, and technology engineering. Each track is representing several scopes of interest associated to particular focal of conference, which can be accessed in the link below. As one of the output of the conference, each track will have its own proceeding with associated scope of interest.

Scope Conference

1**Bio Health – Biomedical and Public Health Innovation**

- Biomedical Imaging and Diagnostics
- Health and Public Health Promotion
- Environmental Health
- Healthcare Innovation and Digital Health Technologies

2**Bio Food – Food, Nutrition and Sustainable Technology**

- Food Technology and Sustainable Processing
- Nutrition, Functional Food, and Food Safety
- Eco-friendly Design and Technology
- Biotechnology and Food Science

3**Bio Science – Life Sciences, Biodiversity and Agricultural Biotechnology**

- Tropical Biodiversity and Ecosystem Conservation
- Molecular Biology, Genomics, and Genetic Engineering
- Biotechnology in Agriculture and Climate Resilience

4 Environment Engineering

- Air and water pollution control
- Bioremediation and soil remediation
- Solid and hazardous waste treatment
- Green architecture, interior design, and landscape planning
- Rural and regional sustainable development
- Chemical and biochemical processes for environmental remediation

5 Renewable Energy

- Solar, wind, and bioenergy
- Smart grids and electric power systems
- High-voltage engineering and energy transmission
- Green manufacturing processes and materials
- Mechatronics, robotics, and automation for energy efficiency

6 Green Science & Technology

- Sustainable construction materials
- Structural, geotechnical, and hydraulic engineering
- Landslide mitigation and slope stability solutions
- Smart transportation and infrastructure
- Applied biology, chemistry, physics, and mathematics in green technology
- Information technology, data mining, and environmental informatics
